These are small text files that are stored on an electronic device to facilitate certain settings and data for sharing with us online about your browser and activity on our website(s) and trading platforms.
- 7.2 A cookie usually contains the name of the domain from which the cookie file was sent, as well as information about the age of the cookie and an alphanumeric identifier. Depending on content and storage duration, there are different types of cookies. Most of the cookies we use are so-called ‘**session cookies**’, which are deleted when you end your browser session. In addition, there are some long-lasting cookies by which we are able to recognize you as a visitor. Many cookies come directly from us, in addition, the storage and evaluation of individual cookies come from service providers (so-called ‘**third-party cookies**’).
- 7.3 In addition, our website(s), HTML emails and certain third-party service providers may also use other tracking technologies, such as ‘**flash cookies**’, ‘**web beacons**’ or ‘**pixels**’ and/or other local storage technologies to help users access their Client’s accounts seamlessly and save their account settings to their browsers. These are typically small transparent images that provide us with statistics, for similar purposes as cookies. They are often used in conjunction with cookies, though they are not stored on your computer in the same way. As a result, if you disable cookies, web beacons may still load, but their functionality will be restricted.
- 7.4 We inform you about the use of cookies and such other tracking technologies in advance, with a corresponding note on a banner.
- 7.5 Some cookies are technically required in order to enable you to use our online and mobile services. These cookies allow us to collect and store the following data:

8. ANALYSIS AND TARGETING TOOLS

A. GOOGLE SERVICES

- 8.1 On our website, we use various services provided by Google Ireland Limited, Gordon House, Barrow Street, Dublin 4, Ireland (hereinafter referred to as "**Google**").
- 8.2 For more information about Google services, please visit <http://www.google.com/privacy/ads/>.

B. GOOGLE ANALYTICS

- 8.3 We use Google Analytics for statistical analysis. Google Analytics is a web analytics service provided by Google LLC., 1600 Amphitheater Parkway, Mountain View, CA 94034, USA ("Google"). Google Analytics uses so-called "cookies", text files that are stored on your computer and that allow an analysis of the use of the website by you. The information generated by the cookie about your use of this website is usually transmitted to a Google server in the USA and stored there. However, if IP anonymization is activated on this website, your IP address will be shortened by Google beforehand within member states of the European Union or other parties to the Agreement on the European Economic Area. Only in exceptional cases will the full IP address be sent to a Google server in the US and shortened there. On behalf of the operator of this website, Google will use this information to evaluate your use of the website, to compile reports on website activity and to provide other services related to website activity and Internet usage to the website operator. The IP address provided by Google Analytics as part of Google Analytics will not be merged with other Google data. You can prevent the storage of cookies by using a corresponding setting on your browser software; however, please note that if you do this, you may not be able to use all the features of this website to the fullest extent possible. In addition, you may prevent the collection by Google of the data generated by the cookie and related to your use of the website (including your IP address) as well as the processing of these data by Google by downloading and installing the browser plug-in available under the following link: <http://tools.google.com/dlpage/gaoptout?hl=de/>.
- 8.4 For more information, see <http://tools.google.com/dlpage/gaoptout?hl=de/> or <http://www.google.com/intl/de/analytics/privacyoverview.html> (general information about Google Analytics and privacy). We point out that on our website(s), Google Analytics was extended under the code "anonymize Ip ();" in order to anonymize the IP addresses, whereby the last octet is deleted.

C. RETARGETING AND REMARKETING

- 8.5 Retargeting or remarketing refers to technologies in which users who have previously visited a certain website are shown appropriate advertising even after leaving this website. For this purpose, it is necessary to recognize Internet users beyond their own website, for which purpose cookies of the corresponding service providers are used. In addition, the previous usage behavior is considered. For example, if a user views certain products, they may later display these or similar products as advertisements on other websites. It is personalized advertising that is adapted to the needs of each user. It is not necessary for this personalized advertisement to be identified beyond the recognition of the user. The data used for the retargeting or remarketing will therefore not be merged with

other data.

- 8.6 We use such technologies to display ads on the Internet. We use third-party providers to deliver such ads. We use, among other things, offers from Google, which allows an automatic display of interesting products for the Internet user. This function is implemented by ‘cookies’. For more information about this technology, see <https://policies.google.com/privacy?gl=de> under the following URL: <https://policies.google.com/privacy?hl=de>. The installation of cookies for Google Remarketing and Google AdWords Conversion Tracking can be prevented by setting the respective browser software by accessing the following website: <http://www.google.com/policies/privacy/ads/> and changing the corresponding setting.
- 8.7 We use Google Retargeting Tags, Appnexus and we use Google Retargeting Tags, Appnexus and Performance Profiles to promote our services and products. The retargeting JavaScript codes implemented on our website(s) store a cookie on the user's computer for the purpose of retargeting. At a later date, the user will be provided with our banners or text ads, provided that the user acts on Google Search websites as well as Google's Display Networks, Appnexus and Performance Profiles. All data is recorded anonymously so that it is not possible to draw any conclusions about specific persons. Users can opt out of retargeting functionality by modifying the Google Remarketing Tags display or disabling retargeting. Alternatively, users may disable the use of third-party cookies by using the network advertising initiative's opt-out page or object to each network individually.

D. GOOGLE CONVERSION TRACKING

- 8.8 We also use Google's Conversion Tracking in this context. When you click on an ad served by Google, a 30-day conversion-tracking cookie will be placed on your device. These cookies are not for personal identification. The information gathered using the conversion cookie is used to generate conversion statistics for Google Ads advertisers.
- 8.9 The legal basis for this data processing is legitimate interest pursuant to Art. (6)(1)(f) GDPR.
- 8.10 You can disable Google interest-based ads on your browser by turning off <http://www.google.com/settings/ads> or opting out at the following URL: <http://www.aboutads.info/choices/>.

E. FURTHER SERVICES OF THE GOOGLE MARKETING PLATFORM

- 8.11 In addition, our website(s) use(s) further services of the Google Marketing Platform (previously “**Google doubleclick**”). These services use cookies to serve ads that are relevant to users, to improve campaign performance reports or to prevent a user from receiving ads multiple times.
- 8.12 Google uses a cookie ID to record which ads are played in which browser and thus prevents them from being displayed multiple times. In addition, Google can use cookie IDs to track what are known as conversions, i.e. whether a user sees an advertisement and later goes to the advertiser's website and buys something there. According to Google, such cookies do not contain personal information.
- 8.13 Your browser automatically establishes a direct connection to the Google server. We have no influence on the

extent and further use of the data collected through the use of this tool by Google. According to Google, through the involvement of these services, Google receives the information that you have accessed the relevant part of our website or clicked on an ad from us. If you are registered with a service of Google, Google can assign the visit to your user account. Even if you are not registered with Google or have not logged in, there is a chance that the provider will find out and store your IP address.

- 8.14 In addition, the Google cookies allow us to understand whether you are performing certain actions on our website after you have viewed or clicked on one of our ads on Google or on another platform (Conversion Tracking) (“Floodlight”). Google uses this cookie to understand the content with which you have interacted on our web sites so that it can later send you targeted advertising.
- 8.15 You can prevent the tracking process by setting your browser software accordingly (e.g. third party cookies disabled), deactivate the cookies for conversion tracking by blocking cookies from the domain www.googleadservices.com in your browser settings, at www.google.com/settings/ads, for interest-based ads of the providers that are part of the About Ads self-regulatory campaign, via the link <http://www.aboutads.info/choices> or the link <http://www.google.com/settings/ads/>.
